## Specialties

Yuki City also boasts numerous local specialties, including fresh farm products, meats, full-bodied local sake, industrial products incorporating various technologies, as well as traditional arts and crafts such as Yuki-Tsurugi textiles, Paulownia crafts, and more. These items are presented as thank-you gifts to people who support Yuki City with the "hometown tax." We do this to help people get a sense of familiarity with Yuki so that they feel the city is like a second home to them.
