Implementation of Farmland Patrols

To investigate the current status of idle farmland (abandoned farmland) and confirm its use, and with the aim of promoting the use of farmland, we will conduct farmland patrols (farmland use surveys). During patrols, agricultural committee members, farmland use optimization promotion committee members, and city officials may enter farmland. If it is determined that the land is not being used appropriately as farmland, we may ask for confirmation of your intention to use it. Please kindly make efforts to keep your land with proper management.

Have your Child's Vaccinations been Completed?

Vaccinations not only prevent the onset and severity of infectious diseases, but also prevent outbreaks by forming "herd immunity". It is recommended to get vaccinated at the appropriate time to protect your own and your family's health. If you have not received vaccinations yet, please have it done in summer holidays.

Review of the High-cost Medical Expense Benefit System

There is a system called “High-cost Medical Expense Benefit”—*Kogaku Ryoyohi*— if the total amount you pay out of pocket at a medical institution within a single month exceeds a certain limit (Copayment Ceiling), the amount exceeding this limit can be reimbursed.

Above-mentioned system is under a two-phase review; in August 2026 and August 2027. This is for the purpose of ensuring the long-term sustainability of the system.

In the system revised this month, the Copayment Ceiling (medical expense limit per person per month) got raised, while annual expense limit was newly incorporated for the sake of those who need a long-term medical treatment.
